

**Alexandr Arakelyan, Ph.D.**  
**Optical Engineer**

Alexandr holds his doctorate in physics from the University of Virginia and specializes in experimental optics and photonics, design of optical systems and optomechanics for industrial laser applications, high power laser ablation, and RF and microwave spectroscopy.

At SurClean, he serves as an integral part of the engineering team, leading research and development effort to evolutionize industrial laser cleaning by investigating laser-material processes and designing novel intelligent laser beam delivery systems.
